### **Integrated Pest Management in Multifamily Housing Online Course**

This online course is designed to help a property manager, including a public housing authority, implement a comprehensive integrated pest management (IPM) program by bringing the stakeholders, especially resident leaders, together to develop the skills and practices needed to effectively eliminate pests such as cockroaches and rodents from multifamily housing. This course is available both in the classroom and online. Click on the link to register for the online version of this course. After you submit your registration information, you will automatically be taken to the start page for the course. There is no cost for this course.
