

Essentials for Healthy Homes Practitioners

Instructions to Obtain Continuing Education Credits

Healthy Housing Solutions offers the Essentials for Healthy Homes Practitioners course to professionals from a variety of fields within public health, environmental health and housing.

The purpose of the course is to help you understand the connection between health and housing and how to take a holistic approach to identify and resolve problems which threaten the health and well-being of residents. It identifies root causes of health problems in a home and links them to seven principles of healthy housing: keep it dry, keep it clean, keep it pest-free, keep it ventilated, keep it safe, keep it contaminant-free, and keep it maintained.

This course has been approved for continuing education hours for the following professionals:
