

Essentials for Healthy Homes Practitioners

Outcomes for Nursing CEUs

After attending this course, nurses should be able to:

1. Collect accurate and thorough information from a resident about how the resident's house may be having an impact on their health.
2. Conduct a basic assessment of the resident's house in order to identify possible health hazards.
3. Effectively communicate information to the resident on the health hazards that are in the house.
4. Accurately advise the resident on the actions the resident should take to address the health hazards in their home.

Requirement for Contact Hour Award

1. Attend entire training.
2. Complete post-course evaluation in the learning management system and answer the four outcome questions.

This continuing nursing education activity was approved by the Ohio Nurses Association an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation (OBN-001-91). Approval valid through 6/4/2020. Assigned ONA #21544.
