

# UNDERSTAND CODE REQUIREMENTS

Assess your local code inspection program & practices.

Define and compare the IPMC and NHHS.

Conduct a virtual code inspection.

# WHAT SHOULD A CODE COVER?

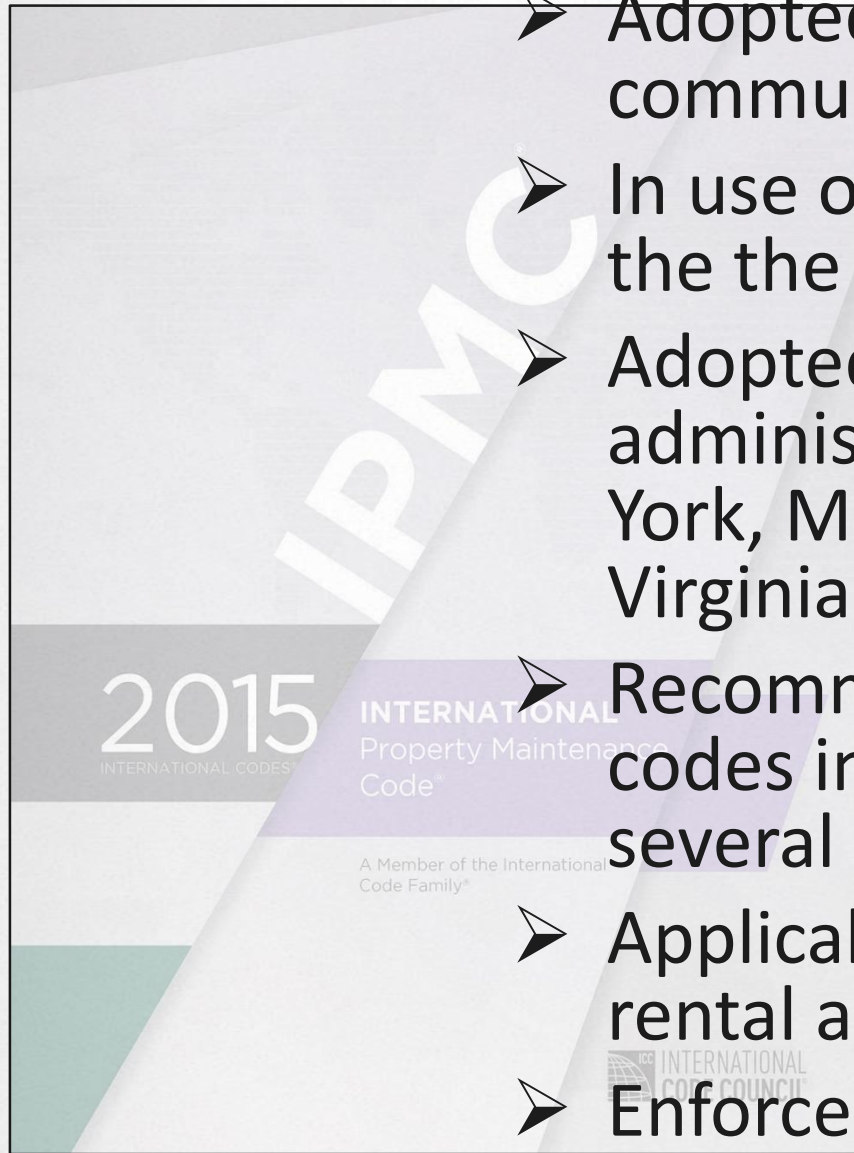

# A CODE FOR EVERYTHING...

# ...AND EVERYTHING UP TO CODE!

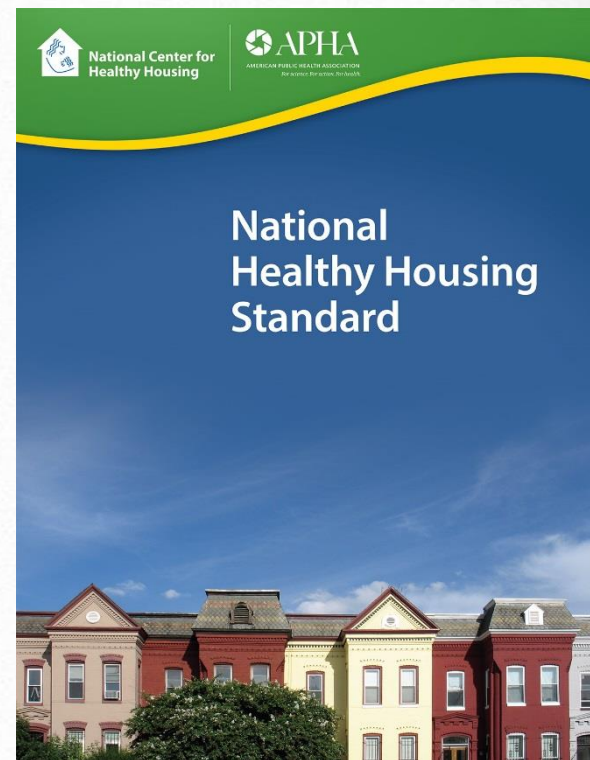

- Adopted by more than 600 communities
- In use or adopted by 36 states and the the District of Columbia
- Adopted for statewide administration in 4 states: New York, Maryland, Virginia, and West Virginia
- Recommend as a model for locals codes in Georgia, Oklahoma, and several other states
- Applicable to existing buildings, rental and owner-occupied homes
- Enforced by Code Officials

- Reconnects housing and public health sectors
- Provides evidence-based standard of care
- Helps fill gaps where no policy exists
- Bridges the health and building code communities
- Acts as a complement to the IPMC and related policies

# Covers:

- Duties of owners and occupants
- Structures, facilities, plumbing, and space requirements
- Safety and personal security
- Lighting and electrical systems
- Thermal comfort, ventilation, and energy efficiency
- Moisture control, solid waste, and pest management
- Chemical and Radiological Agents
