

Heathy Homes Assessment for Community Health Workers

Exercise 4: Prioritizing Hazards

A. For each room you assessed, try to list at least three hazards you identified.

General/Indoor Pollutants

1. _____
2. _____
3. _____
4. _____
5. _____

Kitchen

1. _____
2. _____
3. _____
4. _____
5. _____

Living area (if more than one, please specify)

1. _____
2. _____
3. _____
4. _____
5. _____

Sleeping area (if more than one, please specify)

1. _____
2. _____
3. _____
4. _____
5. _____

Bathroom (if more than one, please specify)

1. _____
2. _____
3. _____
4. _____
5. _____

Basement

1. _____
2. _____
3. _____
4. _____
5. _____

Exterior

1. _____
2. _____
3. _____
4. _____
5. _____

Home Safety

1. _____
2. _____
3. _____
4. _____
5. _____

B. As a group, decide on the top five hazards overall. For each:

- **Specify what makes it a hazard: What are the associated health risks?**
- **Indicate if the health risk is acute or chronic.**
- **Rank it from 1 (most serious) to 5 (least serious) of this of top five.**

1. Hazard: _____

Health impact: _____

Acute Chronic

Rank: _____

2. Hazard: _____

Health impact: _____

Acute Chronic

Rank: _____

3. Hazard: _____

Health impact: _____

Acute Chronic

Rank: _____

4. Hazard: _____

Health impact: _____

Acute Chronic

Rank: _____

5. Hazard: _____

Health impact: _____

Acute Chronic

Rank: _____
